Source for all data: Lipper, a Thomson Reuters company, as at May 31, 2017. <sup>o</sup>For illustration purposes only. <sup>\*</sup>Target distributions are predetermined, reviewed annually and subject to change. <sup>o</sup>Distribution yield is calculated based on prior 12-month rolling average of paid distributions and using average month-end net asset value, per security. The distribution yield does not include any year-end capital gains distributions paid in addition to the regular monthly distributions. Distribution yield should not be confused with a fund's performance or rate of return. <sup>o</sup>As of December 30, 2016 (includes HST).

## INVESTMENT PHILOSOPHY

The Portfolio Managers use a fundamental, value based investment approach that seeks attractively priced securities that offer the potential for growth and income. Investment analysis is focused on understanding and evaluating the factors that make a company profitable including profit margins, the use of assets, debt levels, revenues and reinvestment opportunities.

## INVESTMENT PROCESS

Manulife Funds are managed by Manulife Investments, a division of Manulife Asset Management Limited. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the fund facts as well as the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The rate of return shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values or returns on investment. The payment of distributions is not guaranteed and may fluctuate. If distributions paid by the fund are greater than the performance of the fund, then your original investment will shrink. Distributions should not be confused with a fund's performance, rate of return, or yield. You may also receive return of capital distributions from a fund. Please consult with your tax advisor regarding the tax implications of receiving distributions. See the prospectus for more information on a fund's distributions policy.
