INVESTMENT PHILOSOPHY

Invest according to a common investment philosophy called Focus on Change. Using this philosophy, they invest in stocks where they believe corporate prospects will be better than the market is pricing in. Neither value nor growth driven, this approach is designed to allow the asset manager to identify opportunities in any market cycle.

INVESTMENT PROCESS

FOR MORE INFORMATION, PLEASE CONTACT YOUR ADVISOR OR VISIT MANULIFEMUTUALFUNDS.CA

Manulife Corporate Classes are managed by Manulife Investments, a division of Manulife Asset Management Limited. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the fund facts as well as the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in share value and reinvestment of all dividends and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The rate of return shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values or returns on investment. The payment of distributions is not guaranteed and may fluctuate. If distributions paid by the fund are greater than the performance of the fund, then your original investment will shrink. Distributions should not be confused with a fund's performance, rate of return, or yield. You may also receive return of capital distributions from a fund. Please consult with your tax advisor regarding the tax implications of receiving distributions. See the prospectus for more information on a fund's distributions policy.
